It is the difference that sets you apart from your competition.

Why repipe when you can ePIPE.

REMEMBER:

There is only one

Protected under US Patent 7160574 and other patents pending.

Trade Show success in Europe

Our international affiliate, ADF Espana, exhibited at the 18th International Water Exposition in Zaragoza, Spain's biggest exposition connected with the water industry.

In addition to using

our marketing material ADF Espana added their own European touch to catch the attention of passersby. Here is the photo they used to do so, "I should have ePIPE'd." This month they opened their fourth location in Spain.

They also had famous soccer (futbol) goalkeeper for Real Madrid, Cesar Sanchez, their friend and supporter, in their booth to sign autographs. Here you'll see a photo of the famous player and Larry Gillanders. Sanchez started five out of nine Champions League matches for Real Madrid during their victorious European campaign in the 2001-02 season.

Process Animation online

We have completed a 3D animation of our process to allow customers to see what happens during the process.

I invite all of you to check it out on our website here, <http://aceduraflo.com/processvideo.html>. Feedback on this project is greatly appreciated.

We will be sending out a DVD with this animation, as well as a few more video clips, to use in your sales presentations.

Jeff Stumpo finds great marketing tool

The 'Opportunity Knocks' system allows users to go online at www.oppknockspostcards.com and place orders, set budgets and mail out postcards. The staff at opportunity knocks works with you to get a card that will generate real results. "Opportunity Knocks has helped tremendously with generating leads for our company," said Jeff Stumpo, Market Development Manager for Pipe Restoration Technologies in Sarasota, FL.
